

## Automatic Ware Wash Detergent Excel

**A blend of eco-friendly chelating, alkalinity agents and specialist additives to remove all types of soiling from dishes, cutlery and crockery when used through an automatic dosing unit.**

### Cleaner

- Controls hard water scale, preventing staining and improving rinsing
- Cuts through grease and dried-on food
- Eliminate oils, grease, proteins and starch-based deposits
- Excellent dispersing action
- Low foaming

### Leaner

- Prevents scaling of the dish wash machine even in hard water conditions
- Highly concentrated, giving excellent economy in use
- Suitable for all types of single and multi tank automatic machines

### Greener

- Reduced carbon footprint
- No harmful NTA and EDTA
- Reduces the environmental impact of dishwashing on the aquatic environment

## Automatic Ware Wash Detergent Excel

### Use Instructions

Immerse the detergent suction tube into the drum. The equipment will automatically control the amount of detergent which is fed into the washing machine. Dose at a rate of 1 - 4 ml per litre, depending on water hardness. 2 ml per litre, will prevent scale deposits in water with up to 200 ppm water hardness.

### Product Compatibility

Contains: Water softeners, scale control and alkalinity agents

### Safety & Storage

Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet (SDS). Only for professional users/specialists. Store in original closed containers away from extremes of temperature.
